One of the great things about our teaching is the system of accredited classes that can help you learn, synthesize, and apply this teaching. While the teaching is simple, the problems people experience tend to be complex and it can feel awkward when you're trying to apply a new idea to an old problem that just won't go away. Our teaching has a very practical approach to this dilemma. We can give you the tools and teach you how to apply them to all the circumstances and personalities you encounter. The primary tool, however, in our tool box is affirmative prayer. Every class we teach reinforces the use of affirmative prayer and encourages all to strengthen their relationship with God by learning how to pray.

We have a very common sense Cause and Effect way of life that helps students reduce feelings of separation and fear. As we say in our teaching, "the power of God works when you recognize it has the power." This is the aim of our classes: To keep you on track, transforming your life into an experience of acceptance, growth, and wisdom. This is what I love about our philosophy, it truly changes the way you think, which changes the way you live. I remember when I first started class in 1976. I would go for a while, then drop out, then return, then drop out. This went on for almost two years before it finally occurred to me, "My life works better when I am in class." This was a life changing realization and it helped me to mentally equate the way I think with the way I experience my life.

The curriculum we teach has two years of basic undergraduate work in the Science of Mind 100 and 200 series. These classes must be taken consecutively and they take two-years to complete. The classes are in eight to 12 week modules and can be taken in any order. However, in order to receive credit you must have a fully paid tuition, an 80% attendance record, and have completed all your assignments. Scholarships are available. Please talk to Dr. Jim, Amber Davidson, or Melissa Burgess and we will be happy to explain. The classes that Dr. Jim teaches can be audited. However, if you want credit you must sign up for the class and pay the tuition or receive a scholarship so we can monitor your attendance and check your completed assignments.

Once you've successfully completed SOM 100 and 200 you are qualified to take SOM 300. This is a 16 month class that is a graduate level offering that prepare the student to be a Prayer Practitioner. This makes you eligible to work with people on a one on one basis in prayer and education. Upon completion of SOM 300 you are then eligible to take our Ministerial Training. This is a professional training that takes about three years, and can be done at one of our National Seminaries.

## Why Take Classes?

Dear Friends,

Taking classes helps to center your heart and align yourself with God. Each class is intended to help the student grasp our philosophy and learn—as quickly as possible—how to apply it. This year I am teaching the Science of Mind 200 series of classes and I am excited about the line up. Our first 8-week class is accredited and is one of the most popular classes we offer. Eric Butterworth has written a master piece that can be studied over and over and you will still learn more. This class is very helpful for those who feel stuck, unable to manifest, and limited by their current economic condition. From the very first chapter, Butterworth engages each in the creative power of mind and how to use its unlimited ability to create the kind of life you want to live. Once you master the key ideas you will experience a change in every area of your life.

Our second class is a non-accredited professional training in public speaking. I developed this class over 12 years ago to help my colleagues in the ministry write and deliver talks without notes. I teach this class once a year to help anyone who desires to learn an efficient and useful method in research, organization, and speaking.

Our third class Visionary is a short non-accredited two-week class. I created this class over 15 years ago to help people focus on creating a vision, defining a purpose and learning how to navigate life's journey without getting stuck or sunk. This year I have split the class into two 2-hour sessions meeting the first two Tuesdays in December. Along with the work book, I added a six-week journal so that students can continue to meet and support each other on the journey. Some who have taken this class have gone on to form Master Mind groups and continue to meet on a weekly basis. This is a two-week class and is offered on a love-offering basis. The materials for the class are \$25 and include the work-book and a six-week Journal.

Our Third class is an eight-week accredited class based on my book, *The Secret According to Jesus*. I wrote this book because so many people have a traditional view of Jesus that can be confusing and contradictory. In this class you will learn how the bible was written and the different ways it can be read; the genius of Jesus' teaching and how it applies to everyday challenges; the ten power teachings of Jesus and how to live them; the Lord's Prayer and what it means in the language of Jesus, Aramaic; and seven keys to unlocking your life.

Our Fourth class is an eight-week accredited class on the Edinburgh Lectures by Thomas Troward. Troward was one of the great thinkers of his time. After he graduated from high school in the mid-1800s, Troward was the youngest person in England to take and pass the bar exam without going to University. He then moved to India and served as a colonial magistrate and proceeded to teach himself Hebrew, Aramaic, Greek, and Sanskrit. He authored many books and developed a very original view of traditional religious philosophy. You will also learn the philosophical model upon which our teaching is built.

I urge you to take these classes. It will change your thinking and that will change your life. I look forward to seeing you.

Blessings,

*Dr. Jim*
